

MEDIA RELEASE: COAST2BAY HOUSING GROUP REACHES THE TOP TIER OF COMMUNITY HOUSING PROVIDERS ACROSS AUSTRALIA

Coast2Bay Housing Group has been re-assessed by the Queensland registrar of the National Regulatory System for Community Housing and elevated to Tier 1 provider status.

Chairman, Gordon Sutherland, is celebrating this milestone noting that “this achievement has been part of our strategic plan for 8 years and sets the organisation up to grow and develop further”.

Only 39 other organisations have this status nationally and the decision marks a significant step for the locally based community and affordable housing provider that is celebrating its 30th year in 2021.

Chief Executive, Andrew Elvin, says “this re-classification recognises the growth of the company and its success in attracting over \$20m for its construction program over the next year and further plans for investment of up to \$100m over the 5 year horizon”.

The new status will mean that more housing will be in place to meet the housing needs of vulnerable Australians across Moreton Bay, Sunshine Coast and Noosa shires as well as low income and key workers households in need of affordable housing.
