High levels of service

PWPN members operate exactly as a traditional real estate agency does. They provide the same high level of service and manage all types of property owned by other parties including private investors, build-to-rent developers, and other property owners. Members adhere to a code of conduct and are also members of the Community Housing Industry Association (CHIA)

Surplus funds reinvested

The only difference to private real estate agencies, is that all surplus funds are returned to its 'parent' community housing organisation and reinvested into the community. This reinvestment back into social and affordable housing enables more individuals and families to access safe, secure housing.

Find out more about joining the network or find a member agency to manage your property portfolio.
